Claim Amendments

This listing of claims will replace all prior versions and listings of claims in the present application.

CLAIMS

Claim 1. Canceled.

Claim 2. (Previously amended) The pop-up dispensing system of Claim 1 wherein the phosphate-quaternary amine compound is selected from the group consisting of Coco Phosphatidyl PG-Dimonium Chloride, Cocamidopropyl Phosphatidyl PG-Dimonium Chloride, and Stearamidopropyl Phosphatidyl PG-Dimonium Chloride.

Claim 3. (Previously amended) The pop-up dispensing system of Claim 2 wherein the lotion comprises less than about 3 percent by weight of the phosphate-quaternary amine compound.

Claim 4. (Previously amended) The pop-up dispensing system of Claim 1 wherein the non-cellulosic organic water soluble polymer is selected from the group consisting of synthetic polymers.

Claim 5. (Previously amended) The pop-up dispensing system of Claim 1 wherein the non-cellulosic organic water soluble polymer is in an effective amount of less than about 0.11 percent by weight.

Claims 6-9. Canceled.

Claim 10. (Previously amended) The pop-up dispensing system of Claim 1 further comprising an effective amount of a preservative.

Appl. No. 09/918,223

Amdt. Dated June 6, 2003

7
Claim 11. (Previously amended) The pop-up dispensing system of Claim 1 further comprising an effective amount of a fragrance and an effective amount of a fragrance solublizer.

8
Claim 12. (Previously amended) The pop-up dispensing system of Claim 1 further comprising a kerotolytic.

9
Claim 13. (Previously amended) The pop-up dispensing system of Claim 1 wherein the kerotolytic comprises allantoin.

C1
[Claim 14. Canceled.]

Cont.
11
Claim 15. (Previously amended) The pop-up dispensing system of Claim 1 wherein the substrate is wetted with at least 1.0 gram of the lotion per gram of dry substrate weight.

12
Claim 16. (Previously amended) The pop-up dispensing system of Claim 1 wherein the substrate is wetted with at least 2.0 gram of the lotion per gram of dry substrate weight.

11
17. (Currently amended) A pop-up dispensing system for reliable single dispensing of discreet pre-moistened wipes in consecutive order, the system comprising characterized by:

(a) a container having an interior portion and an aperture for drawing through the pre-moistened wet wipes in consecutive order;

(b) a plurality of the pre-moistened wipes, the wipes being stacked, folded and interleaved in a substantially interfolded z-fold pattern in the interior portion of the container;

Appl. No. 09/918,223

Amdt. Dated June 6, 2003

Reply to Office Action of December. 9, 2002

wherein the pre-moistened wipes are wetted with a lotion, the lotion being an aqueous solution comprising at least about 90% by weight water, a surfactant selected from the group consisting of phosphate-quaternary amine compounds and non-ionic surfactants, and effective amounts of a second ingredient selected from the group consisting of non-cellulosic organic water soluble polymers and alkoxylated alcohols and wherein each of the pre-moistened wipes has a leading edge panel having a length of from about 2 cm to about 7 cm, a central panel having a length of from about 3 cm to about 12 cm, and a trailing edge panel having a length of from about 2 cm to about 7 cm.

C1
cont.
Claim ¹¹⁰~~18~~. (Currently Amended) The pop-up dispensing system of Claim ¹~~18~~,
wherein the pre-moistened wipes comprise a nonwoven substrate.

¹³
Claim ¹~~19~~. (Currently Amended) The pop-up dispensing system of Claim ¹~~19~~,
wherein the aperture is substantially S-shaped.

[Claim 20. Canceled.]
